

The FSB- Sozialbonus

Better living. Fair rents. For Freiburg.

The FSB-Sozialbonus

We are committed to providing **affordable living space** to Freiburg's citizens. We do this by building affordable apartments for rent, maintaining developed structures and developing new quarters. Rent income also plays a role. This is the only way we can create and preserve affordable living space. You also benefit from being our tenant.

The **FSB-Sozialbonus** is a new and unique opportunity for you to have your individual life situation taken into account when the amount of your rent is determined. The local council hopes it will relieve the

household budgets of low-income families. For a rent adjustment the net basic rent for an FSB apartment must not be more than 30% of your household income.

Before a tenant's rent can be reviewed you have to submit a **housing benefit assessment** as proof of income. If you haven't got a housing benefit assessment this flyer provides you with information on how to apply for one so that you can profit from the new FSB-Sozialbonus.

Fair rents benefit all

- > The FSB-Sozialbonus relieves the household budgets of low-income tenants.
- > Rent adjustments are calculated on the basis of household income.
- > No rent increases for tenants who spend more than 30% of their income on rent.
- > More fairness through individual rent calculations.
